- On 14 November 2022, the Commission organised an informal meeting with competent authorities in Israel, including the Attorney General's Office. Israel showed interest in concluding an agreement on cooperation with Eurojust. Unfortunately, there has been no progress since and the Commission is still awaiting a formal show of interest (e.g. via letter) and the appointment of a negotiating team.
- In the last weeks, the Commission has informally requested Eurojust to use regular exchanges with Israel (be this through Euromed or in visits such as this one) to reiterate the Commission willingness to start negotiations as soon as possible.
